

Candle Lite Unlimited™

P/Ns 3450, 3570, 3572, 3484, 3485

The **Candle Lite Unlimited™ Flicker Candle (Incandescent)** simulates the natural flicker and movement of a candle flame. The circuit board produces a random flicker pattern and not just a blinking or repeating light source. City Theatrical's flicker candle is used by many Broadway shows and touring companies due to its amazingly realistic quality.

Features:

- Flame tip is a three-bulb design encased in a translucent shell
- Microprocessor circuit built in for natural random flicker pattern
- Realistic LED lamps • Operates on 9 VDC battery or 5-7.5VDC remote power supply
- Power 7.5 VDC 150mA (with power supply)
- Dimmable to black without flicker pattern stopping
- Controllable and dimmable with City Theatrical DC PWM Dimmers

Candle stick Features:

- Unobtrusive on-off switch
- Internal 9v battery compartment
- Both the 5" and 12" candles can stand upright on a surface when powered either by batteries or by AC Adapter
- 9v battery snap

From Left to Right:
P/N 3472 12" and
P/N 3470 5" candle
stick.

Dimensions:

- 5" or 12" length x 1.375" diameter candle stick
- Circuit board = 1.97" x 0.63" (50mm x 16mm)
- 12" wire lead from circuit board to flame tip

P/N 3450 Candle Kit

Name	Part Number
Candle Kit (Incandescent)	3450
Candle Stick (Incandescent), 5" (127mm)	3470
Candle Stick (Incandescent), 12" (305mm)	3472
AC Adapter for One Candle, Not Dimmable	3484
AC Adapter for Six Candles, Not Dimmable	3485

P/N 3484 AC Adapter

Note: Candle Lite LED flicker candles will no longer be manufactured. We recommend our incandescent candles, listed above, as they are more realistic.
