Target Audience

The INFINIBAR 3-Way Flat Connector is ideal for filmmakers and lighting designers who want to create a rotating 3-light array of INFINIBARS to act as practical lighting elements and structures in their scene.

With its spinning mount, the 3-Way Flat Connector is ideal for creating useful lighting effects, such as car process shots.

What's in the Box

Name	Qty
INFINIBAR 3-Way Flat Connector	1
5mm Hex Wrench	1

Product Description

The INFINIBAR 3-Way Flat Connector is an all-metal mounting accessory that is designed to be used with any INFINIBAR (PB3/PB6/PB12) to create a rotating lighting shape consisting of three INFINIBAR lights. This connector can be used in conjunction with any INFINIBAR fixture to produce a variety of special lighting shapes and designs.

Each connector also features DC barrel connectors that allow the INFINIBARS to share power when being charged.

The 3-Way Flat Connector also features a baby pin with a 1/4-20in screw thread at the center of the connector for additional mounting onto C-stands or other stands with baby pin receivers.
