

# INFINIBAR Hexagon 3D Connector Data Sheet

#### Main Features

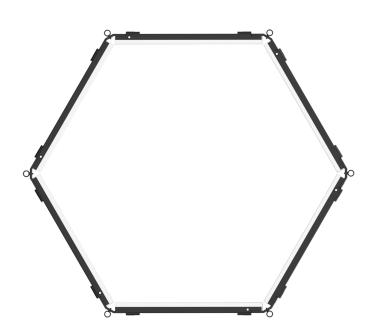

- Connect Two INFINIBAR Lights (PB3/PB6/PB12) onto a 120° 3D Bracket
- Use Six INFINIBAR Hexagon 3D Connectors to build a Hexagonal Lighting Fixture
- DC Power Passthrough for Connected Lights
- Secure Each INFINIBAR Safely with Three Captive
  5mm Hex Screws
- Included 1/4-20in Eyebolts for Additional Rigging
- All Metal Construction

## **Target Audience**

The INFINIBAR Hexagon 3D Connector is ideal for filmmakers and lighting designers who want to create three-dimensional hexagonal or other uniquely angled lighting shapes using INFINIBARS to act as practical lighting elements and structures in their scene.

### What's in the Box

Name	Qty
INFINIBAR Hexagon 3D Connector	6
1/4-20in Eyebolt	6
5mm Hex Wrench	1

## **Product Description**

The INFINIBAR Hexagon 3D Connector is an all-metal mounting accessory that is designed to be used with any INFINIBAR (PB3/PB6/PB12) to create hexagonal or other uniquely angled three-dimensional (inward-facing) lighting shapes. This connector can be used in conjunction with any INFINIBAR fixture to produce a variety of special lighting shapes and designs.

Each connector also features DC barrel connectors that allow the INFINIBARs to share power when being charged.

Each connector also features a 1/4-20in screw thread for additional mounting with the included 1/4-20in eyebolts or other accessories.
