- **Tool-less** Hassle-Free Installation
- Collapsible Into a Compact Shape for Storage
- **High Reflectivity Inner Lining** for Improved Light Efficiency
- **Included 45° Control Grid** for Enhanced Directionality and Eliminating Spill
- Lightweight Design
- Included **Carrying Bag** for Easy Storage and Transport

Target Audience

The INFINIBAR PB12 Softbox is ideal for filmmakers and lighting technicians who need to increase the softness of INFINIBAR PB12 LED Pixel Bar without dramatically increasing the overall fixture size, weight, and setup speed. The hassle-free tool-less of design of the PB12 Softbox allows users to travel with and install the modifier without having to worry about extra components and speedrings.

Users who need more directionality out of their PB12 will also appreciate the included fabric 45° Light Control Grid.

This softbox is a lightweight and useful tool that belongs in every PB12 owner's kit.

Product Description

The INFINIBAR PB12 Softbox is a rectangular soft light modifier designed specifically for the INFINIBAR PB12 LED Pixel Bar. This modifier further diffuses and softens the PB12's light output, creating a slim 4-foot soft light perfect as a key or fill light for illuminating subjects such as people or products. The softbox also includes a 45° Light Control Grid for increased directionality and to eliminate excess spill light.
