

The **TIMEBAR** is a lightweight and versatile timecode display with high-contrast OLED technology, suitable for studio and on-set use. It also serves as a fully-fledged timecode generator, timer, text display and more.

DESCRIPTION

The TIMEBAR is the all-rounder among timecode displays, combining multifunctionality with a high-contrast display. Equipped with OLED technology, the TIMEBAR features a unique alphanumeric design that ensures excellent readability, making it suitable for use both in the studio and on set. It serves as a reliable timecode generator or as a timecode display for directors and the team.

The TIMEBAR can be used as a timer or stopwatch device for presenters and content creators. Its versatility extends to displaying text messages via Setup App, making it a true multitool among timecode displays.

The OLED display not only provides high contrast, but also ensures low energy consumption, allowing the TIMEBAR to last throughout the entire day. To facilitate sustainable and long-term use, both the battery and the OLED display are easily replaceable and can be obtained from the official shop or numerous authorized dealers.

The Tentacle TIMEBAR seamlessly integrates into the overall Tentacle workflow, allowing easy and intuitive operation through the familiar Setup App via Bluetooth®. This ensures a smooth and efficient experience for users in various production scenarios.

ADDITIONAL PRODUCT INFORMATION

- **SKU:** TB1
- **GTIN:** 4260452430114
- **Tariff:** 85437090
- **Country of origin:** Germany
- **Packaging dimensions:**
274 × 110 × 47 mm / 10.78 × 4.33 × 1.85 in
- **Packaging weight:** 373 g / 13.15 oz
